

## **AIR Mont Blanc**

AIR Mont Blanc, cluster of machining and supplying mechanical parts companies for the aircraft industry will be at the next Paris Le Bourget Air Show with the Rhône-Alpes Region delegation. Through the Arve-Industries Competitiveness Cluster and with the Rhône-Alpes Aerospace Cluster support, AIR Mont-Blanc has eleven active members. They account for more than 50M € turnover and count more than 250 people. Already involved in international sourcing projects, its members have established industrial competence centers around the world: including Morocco, India, USA and China.

**Every day**, AIR Mont Blanc serves the needs of precision and complex mechanical parts for customers and contractors such as Airbus, Embraer, Bombardier, Safran, Zodiac, Liebherr.

**Every day**, AIR Mont Blanc meets the requirements of quality, traceability and timelines of its customers, even in situations of ramp up.

**Every day**, AIR Mont Blanc focuses on reassessing its strengths and weaknesses to be able to meet its customer's needs and expectations, in France, and around the world.

**AIR Mont Blanc** provides a simple answer to a complex issue. Intellectual, industrial and logistic expertise are driven by its members.

Members are family-owned company ensuring foundations for agility, quality, profitability, sustainability and investment capacity.

All are AS/EN 9100 qualified and combine their know-how to represent a sustainable strength in the field of:

- Industrial engineering (design of parts and processes)
- Precision machining of complex parts or large batches
- Surface and thermal treatments
- Strict control of industrial processes and quality

These companies are members of Arve-Industries, which recently initiated a label of excellence "Mont Blanc Excellence" for which some members have already been distinguished.
